

## E-Lite EXP-L1 Image Release History

Version	Release Date	Changes
15.00.15	11/7/2014	Added Switch Output Wiring Selection (Modbus Address 2662 0:Sourcing, 1=Sinking)
15.00.14	3/27/2013	Modified Communication Routine Reduced Sdevice Timer Set Double Write to Download Mode via RS232 Port Added GM/CC Conversion Factor (Modbus Address 4507)
15.00.13	1/19/2012	Added Bluetooth Feature Modified Digital Input/Output Assignments Modified Communication Routine Modified Downloader Mode
15.00.12	3/31/2011	Added Watchdog Timer (Modbus Address 3021)
15.00.11	3/22/2011	Added API2565 Ethylene/Propylene Equations
15.00.10	3/10/2011	Correction - RS485 Port Initialization
15.00.09	12/3/2010	New Display Contrast Initialization
15.00.08	8/27/2010	Modified Display Contrast to Support Version 1 and Version 2 Display
15.00.07	3/31/2010	Added New Display Driver Modified Reset Routine
15.00.06	1/19/2010	Added Rosemount Meter Type Modified Serial Communication Routine
15.00.05	10/13/2008	Added RS485/RS232 Selection (0=RS232, 1=RS485 Modbus Address 2349)
15.00.04	9/25/2008	Added V-Cone Flow Equation
15.00.03	5/2/2008	Correction- NIST14 Fluid Mixtures Expand Range of NIST14 Calculation
15.00.02	3/13/2008	Correction - Reset Bi-Directional Configuration Variables
15.00.01	6/27/2007	Correction - Multivariable Diagnosis Added Factory Test
15.00.00	1/4/2007	First Release
